Keep your business running smoothly

We can supply you with the lubricants you need to keep your business operational, including:

- Mineral and synthetic oil
- Biodegradable
- Food safe
- Fire resistant

From OEM-approved oils and greases to in-house custom blends, we're trusted by all industries to recommend and supply the best products to suit their needs. Our technicians have the expertise and knowledge needed to formulate highly specialised lubricants for every kind of business requirement.

Choosing the right industrial oils and lubricants for your operations helps to maximise equipment performance and increase vehicle lifespan to ultimately keep costs low. And that means choosing a supplier you can trust.

As one of the UK's leading lubricant suppliers, we are trusted by countless businesses in many industries to provide the best product to suit their specific needs. Our technicians have decades of experience formulating highly specialised lubricants for every kind of industry requirement.

Benefits of our lubricants:

- Available in IBCs, 205-litre barrels, 25-litre tubs or smaller quantities
- Own range of products blended in-house to ensure quality assurance
- Team of experts to provide specialist knowledge & advice
- Nationwide coverage so we can reach wherever you are
- Innovative packaging to ensure safe storage & handling
- Emergency same day & next day available to keep your operations running smoothly

Biodegradable lubricants

As one of the UK's leading suppliers of sustainable fuel solutions, we're constantly looking for new opportunities to expand our range of cleaner products. Our biodegradable lubricants can reduce the risk of pollution and harm to your business' local wildlife, giving you peace of mind that in the event of a spillage, environmental damage is kept to a minimum.

Biodegradable lubricants we supply include:

- Biodegradable Engine Oil
- Biodegradable 2-Stroke Oil
- Biodegradable Hydraulic Oils
- Biodegradable Gear Oils
- Biodegradable Chainsaw Oils

If you'd like to learn more about the biodegradable lubricants we supply, speak to a member of our team on 0333 091 3904.

Our lubricants support a number of OEMs

In need of a lubricant health check?

We know that the quality of your lubricants are essential for the smooth running of your operations and the efficiency of your equipment. That's why we offer expert lubricant health checks to give you complete peace of mind that your oils are up to scratch and to keep you in the know if your lubricants are not fit for purpose.

What's involved in our lubricant health checks?

Standard – Internal health check (basic)

- Density at 15°C
- Viscosity index
- Viscosity grade at 40°C and 100°C
- Moisture
- General cleanliness

Premium – Full health check including all of standard plus testing for:

- Contamination
- Additives
- Wear metals
- Fluid condition

We'll also make actionable recommendations if the sample receives a caution or serious health rating!

Call 0333 091 3904 to book a lubricant health check today!

What else does Beesley Fuels offer?

Technical support

Beesley Fuels has a full technical team, including three of the UK's leading fuel chemists that can liaise directly with you and your clients for any technical or legislative information that you may require. We can test your supplies and offer the follow up advice you need to keep your business running smoothly.

In addition, thanks to our own onsite laboratories, analysis and reporting can be completed within 48 hours to ensure business continuity.

Environmental services

We also operate a separate environmental services division to assist with any lubricants, oil or grease maintenance concerns.

- Lubricant sampling/testing
- Procurement of redundant stock
- Waste oil collection
- Tank and pipework inspections & cleaning
- Tank installations and decommissioning

Did you know...

Beesley Fuels is one the first UK fuel distributors to be certified carbon neutral in line with the internationally recognised PAS 2060:2014 standards.

Not only this, but our entire fleet is run on Hydrotreated Vegetable Oil, with any remaining emissions offset. So by choosing Beesley Fuels as your lubricants supplier, you'll already be doing your bit for the environment!
